

BRC Root Cause Analysis

INTRODUCTION

This one-day course will provide delegates with a thorough understanding of root cause analysis (RCA) to know its importance and be able to perform it competently. This is especially helpful when implementing some of the requirements in the BRC Global Standards.

DURATION

1 Day, 09.00 – 18.00

WHO SHOULD ATTEND

This course is aimed at

- Quality and safety management staff at manufacturing, storage and distribution and retail sites
- Auditors
- Consultants

COURSE OBJECTIVES

Delegates will be able to

- Define root cause analysis
- Understand the difference between symptoms and root cause analysis
- Understand the role and importance of RCA in compliance with the BRC Global Standards
- Explore some common methods of undertaking root cause analysis
- Be able to perform a RCA and document it effectively

WHAT ARE THE BENEFITS?

This course forms part of the **BRC Global Standards Professional** suite, a learning programme which will give you international recognition for the key skills and knowledge essential for product safety management.

IN-HOUSE COURSES

Offering better value for money and where possible they can be designed to closely match your specific requirements.

STYLE OF DELIVERY AND COURSE LEADERS

Our course tutors are approved training providers, approved by the BRC. They are qualified and experienced with extensive practical knowledge across a wide range of sectors in manufacturing, catering and retail.

CERTIFICATION

Delegates successfully completing the course will be awarded a BRC Certificate issued by the BRC.

BOOKING AND COURSE FEES

The fee includes lunch and refreshments during the course. Please log on to our website www.iqms.co.uk and complete an on-line booking form advising payment details/purchase order number.
